

SPOTLIGHT – NEW CINEMA IN OSLO

6 April 2017

In spring 2018, a brand new SF Kino cinema will open in Storo, Oslo in Norway.

It will be Oslo's largest cinema with 14 screens, each offering a premium experience and will feature Norway's only IMAX screen since the last IMAX in the country closed in 2002.

Ivar Halstvedt, CEO of SF Kino AS says, "We know from customer surveys that extended opening hours, breadth of repertoire, comfort, service level and technical standard means a lot to the audience's choice of cinema and the choice of going to the movies at all."
